Night Sky, 2019

Lyrical, 2019

Q+A with Nancy Cordry

What is your creative space like?

As I now live in a condo, my space is limited but big enough to have two design walls, a 72" x 72" movable table with storage underneath, a walk in closet for fabric storage and a small bathroom where I do all of my fabric dyeing.

What artists influence you?

Through the years, I have studied art history and have been fortunate enough to travel to many art museums in the world. It is difficult to zero in on just one artist. When I look at famous art, I try to notice color usage, color values, movement, and composition.

How are you staying busy during social distancing? Can you recommend any projects to our opening's virtual guests?

Besides taking lots of walks, reading a good book and working on a jigsaw puzzle, I am making masks for the family. One issue that cropped up is the shortage of elastic! Who ever knew that could happen? When I go into my studio, I play with possible ideas on my design walls and work on some machine quilting. Perhaps in a few days, I will begin dyeing more fabric in new colors.
