

May Stir Crazy Spring Wreath

Fiber Designs by Ann L. Scott, www.fiberdesignsbyann.com

Bring spring door décor inside using an old picture frame, hand mirror (with or without the mirror), or any object that can hang from a door. Learn to make flowers from fabric, coffee filters, and paper, and then add a few other items you may have around the house. Use only white (think wedding), or lovely springtime colors – It's up to you!

Watch Ann's video for ways to make the flowers and use the PDF for the easy butterflies.

Be sure to take a photo of your Spring Wreath and post on Facebook and Instagram using [#stircrazyvam](#) and [#vam-springwreath](#).

SUGGESTED MATERIALS

- Old/recycled picture frame, hand mirror or other wreath hanging type object (doesn't have to be round).
- A fine but not floppy cotton fabric – white or you may want to add color.
- Coffee filters – the circle type that can be made flat-tened.
- Cardstock for PDF flower parts and butterflies.
- Cotton swabs
- Buttons, beads, tiny art balls/stones (Ann made her using paper clay), string, paint, sticks, cloth covered wire
- Felt for back
- Lace or ribbon for hanging
- Glue – hot glue, E-6000, Craft glue.
