

HOOKED ON CROCHET: AN INTRODUCTION WITH BONITA JOHNSTON

Break away from counting knots and following patterns. Enter a whole new world of freestyle crochet.

Bonita Johnston
Blk Girl Maric

Attendees will learn the core skills for freestyle crochet beginning with basic knots on September 20 from 10 am to 1 pm, followed by learning how to make a menagerie of curves, shapes, and knots from 1 pm to 4pm. On September 27 from 9 am to 12 pm, attendees will use their skills to make 2-D designs including crochet scrumbles, crochet eyes, or projects of choice.

Artists may work with predetermined designs or may choose to “wing-it” depending on personal style and preferences. The instructor will demonstrate basic shapes, curves, and lines. She will walk attendees through the making of an eye using crochet. She will also share resources online and ways to continue the journey long after the workshop is over.
